THE MICRODENTAL DIFFERENCE

The MicroDental Northwest team is committed to partnering with you to help provide world-class dentistry to patients. Our focus is to consistently fabricate high-quality dental restorations and appliances that combine artistic craftsmanship and the latest digital technology. As expected, performance and natural-looking beauty are at the top of our list. We invite you to learn more about what makes MicroDental different.

Exceptional Service

MicroDental's focus has always been to provide our dentists with a personalized experience that is both responsive and reliable. We are committed to helping you deliver excellent service to your patients. Some examples of our dedication to you include:

- Comprehensive case planning
- Free local pick-up and delivery
- Concierge approach to practice support
- Dedicated technical support
- CE opportunities

Predictable Quality

As a Certified Dental Laboratory, MicroDental's collaborative yet systemized approach ensures that you can maximize efficiency. Our detailed quality system includes:

- Pursuit of life-like esthetics
- World-class digital capabilities
- Experienced Quality Assurance Team
- Accomplished Certified Dental Technicians
- Occlusal philosophy fluency

Resources & Value

Utilizing our partnership with trusted material manufacturers and optimized fabrication systems, MicroDental offers a great variety of industry-leading restorations at prices that fit the needs of your patients. Our resourceful offerings are accomplished through our:

- Full-service catalog
- Product and material variety
- Complex combo case capabilities
- Safe and certified materials
- State-of-the-art CAD/CAM equipment
